

Removing Dell XPS 720 H2C Cover Panel

The guide will show users how to remove the cover panel on the side of the computer.

Written By: Alexis Cervantes

INTRODUCTION

The cover panel on the side of the computer may be removed to allow access to the "insides" of the computer. The procedure is one step and really easy to do.

Step 1 — Cover Panel

- Remove the cover panel on the side of the computer by pulling out the latch on the back panel and pulling the panel downwards towards the ground.

To reassemble your device, follow these instructions in reverse order.
